

SAFDAR REHMAN

Junior Web Developer

Peshawar, Khyber Pakhtunkhwa, Pakistan • <https://www.linkedin.com/in/safdar-rehman-910440247/> • github.com/safdarrehman1

SUMMARY

Web developer with over 3 years of hands-on experience building responsive, user-centric interfaces with React.js and Next.js, and hands-on exposure to backend development with Node.js and Express.js. Proven track record of delivering clean, reusable frontend code, optimizing client-side performance, and managing state synchronization, while actively growing toward full-stack development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Ant Design, ShadCN UI, Material UI (MUI)

Backend: Node.js, Express.js (hands-on, developing)

State Management & Data Fetching: Zustand, React Query

Tools & Platforms: Git, GitHub, Postman, RESTful API Integration, Firebase Hosting, Hostinger Hosting

PROFESSIONAL EXPERIENCE

Junior Web Developer — Culyte | Peshawar, Pakistan

- Develop and maintain dynamic, responsive user interfaces using React.js and Next.js, significantly improving application performance and user engagement.
- Implement highly customized and accessible UI components leveraging modern libraries including Tailwind CSS, ShadCN UI, Ant Design, and Material UI.
- Architect and manage global application state and server-state synchronization efficiently utilizing Zustand and React Query.
- Spearhead feature development and frontend/API integration for critical project modules, notably HealthCheck (questionnaire UI) and Peela (driver sections and payment transactions).
- Contributed to the frontend and admin panel development of ChedMed, a healthcare platform, building interface components and admin-facing management views.
- Building hands-on familiarity with Node.js and Express.js to support backend understanding and full-stack growth.
- Collaborate seamlessly with cross-functional teams and leadership (CEO/CTO) to establish structured project directories, clean code practices, and professional documentation.
- Manage client-facing website deployment and DNS configuration, orchestrating successful server migrations and staging environments via Firebase Hosting.

Frontend / React Developer — Tech Track | Peshawar, Pakistan

- Developed and maintained responsive, component-driven web applications using React.js, delivering scalable UI solutions across multiple client projects.
- Built reusable UI components and layouts with Tailwind CSS and modern component libraries, ensuring design consistency and accessibility.
- Managed application state and server-state synchronization using Zustand and React Query, improving data consistency and reducing redundant API calls.
- Integrated RESTful APIs to connect frontend interfaces with backend services, handling authentication flows, data fetching, and error handling.

- Optimized application performance through code splitting, lazy loading, and efficient re-render management, improving load times and user experience.
- Collaborated closely with designers and backend developers to translate UI/UX designs into pixel-perfect, functional interfaces.
- Participated in code reviews and followed clean coding practices to maintain a scalable and maintainable codebase.
- Debugged and resolved cross-browser compatibility issues, ensuring consistent functionality across devices and browsers.

PROJECTS

ChedMed

- Contributed to frontend development of the web platform and admin panel, building UI components and management views using React.js and modern styling libraries.

Laka Platform

- Admin Panel: Developed a scalable administrative dashboard utilizing Next.js, TypeScript, Tailwind CSS, and ShadCN UI for streamlined management. (Live Link)
- Landing Page: Built an engaging, high-performance landing page with React.js, TypeScript, Tailwind CSS, and ShadCN UI. (Live Link)

ThinkLawn Ecosystem

- Admin Panel: Engineered a robust control panel to manage platform operations utilizing React.js, TypeScript, Tailwind CSS, and Material UI (MUI). (Live Link)
- Landing Page: Crafted an SEO-optimized and highly responsive landing page using Next.js, TypeScript, Tailwind CSS, and ShadCN UI. (Live Link)

Peela Suite

- Admin Panel & Portal: Designed and implemented comprehensive management and user portals using React.js, Tailwind CSS, and Ant Design. (Links: Admin, Portal)
- Landing Page: Created a fast, dynamic promotional site tailored for optimal user acquisition utilizing React.js, Tailwind CSS, and Ant Design. (Live Link)

Mirza Grease Service Website

- Developed a professional service website with responsive design to showcase business offerings, built with Next.js, Tailwind CSS, and ShadCN UI. (Live Link)

EDUCATION

B.S. Computer Software Engineering

Sarhad University of Science and Information Technology | Peshawar, Pakistan
