

SAFDAR REHMAN

MERN Stack Developer

Peshawar, Pakistan | safdar.rehman.dev@gmail.com | +92 300 0000000 | linkedin.com/in/safdarrehman | github.com/safdarrehman

SUMMARY

Results-driven **MERN Stack Developer** with 4+ years of hands-on experience designing, developing, and deploying scalable, high-performance web applications using **React.js, Node.js, Express.js, and MongoDB**. Proven track record in architecting secure RESTful APIs, optimizing full-stack performance by 35%, implementing automated testing with Jest, and building responsive, interactive user interfaces within Agile/Scrum teams.

SKILLS

Frontend Technologies: React.js, Next.js, Redux Toolkit, Context API, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, ShadCN UI

Backend Technologies: Node.js, Express.js, RESTful API Design, JWT Authentication, Microservices, Middleware, Server-Side Logic

Database Management: MongoDB, Mongoose ODM, MySQL, Sequelize ORM, Aggregation Pipelines, Query Optimization & Indexing

Testing & Optimization: Jest, Supertest, Automated Unit Testing, 85%+ Code Coverage, Web Security, Performance & Core Web Vitals Optimization

DevOps & Tools: Git, GitHub, Docker, Postman, CI/CD, Agile/Scrum Methodologies, Firebase, Oracle Cloud, Linux, Nginx

WORK EXPERIENCE

Apr 2022 – Present Peshawar, PK	Software Engineer / MERN Stack Developer	–	Culyte
- Architected, developed, and maintained full-stack web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack, improving application performance and load speeds by 35%. - Designed and deployed responsive, interactive, and modular user interfaces using React.js and Tailwind CSS, ensuring seamless cross-browser and mobile compatibility. - Engineered scalable RESTful APIs and backend services in Node.js and Express.js, integrating MongoDB with optimized schemas and indexing. - Implemented automated testing pipelines with Jest and Supertest, maintaining over 85% code coverage across all production features. - Diagnosed and resolved critical bottlenecks, memory leaks, and query latencies to optimize overall application scalability and uptime. - Collaborated seamlessly within an Agile/Scrum workflow, actively participating in sprint planning, technical requirement scoping, and code reviews.			
Jan 2021 – Mar 2022 Remote	Frontend Developer	–	Freelance / Independent Projects
- Built responsive, high-converting single-page applications (SPAs) using React.js, modern JavaScript (ES6+), and REST API integrations. - Managed version control and team collaborative workflows using Git and GitHub, maintaining clean commit histories and standard branch merges.			

FEATURED PROJECTS

React.js, Node.js, Express, MongoDB, Tailwind CSS	ThinkLawn — Enterprise Full-Stack Web Platform
- Engineered an acquisition portal and administrative dashboard with role-based access control (RBAC) and real-time state synchronization. - Developed high-throughput Node.js/Express REST APIs handling asynchronous OCR data processing and MongoDB persistence.	
Node.js, Express, React, MongoDB, JWT, Cloud VMs	Mern-Forge Cloud & Web Application Services
Developed modular architecture for scalable MERN applications with JWT authentication, input validation, and containerized cloud VM deployments.	

EDUCATION

Graduated 2026 **Bachelor of Science in Software Engineering (BSSE)** – Sarhad University of Science and Information Technology
