

SAFDAR REHMAN

Junior Web Developer

Peshawar, Khyber Pakhtunkhwa, Pakistan | linkedin.com/in/safdar-rehman | github.com/safdar-rehman

SUMMARY

Passionate Junior Web Developer with hands-on experience building production-ready web applications utilizing the MERN stack. Proven track record of delivering clean, reusable code, architecting full-stack solutions, and seamlessly integrating intuitive frontend interfaces with robust backend APIs. Dedicated to scalable architecture, optimizing application performance, and maintaining efficient server-state synchronization.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** React.js, Next.js, Tailwind CSS, Redux
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MySQL, MongoDB
- **DevOps:** Nginx, Linux VPS, Vercel, Netlify, AWS
- **AI:** OpenAI, Stable Diffusion, MidJourney, Hugging Face

PROFESSIONAL EXPERIENCE

Junior Web Developer | Culyte | Peshawar, Pakistan

Present

- Develop and maintain dynamic, full-stack web applications leveraging React.js, Next.js, and Node.js, significantly improving application performance and user engagement.
- Architect and manage global application state, server-state synchronization, and complex database queries across frontend and backend environments.
- Implement highly customized and accessible UI components utilizing Tailwind CSS, ShadCN UI, and Material UI, while designing robust database schemas and REST APIs.
- Spearhead feature development and API integration for critical project modules, notably HealthCheck and Peela.
- Handle client-facing website deployments, DNS configurations, and DevOps tasks across VPS and Vercel environments.
- Collaborate seamlessly with cross-functional teams and leadership (CEO/CTO) to establish structured project directories and clean code practices.

PROJECTS

ChedMed

- Developed the robust frontend website and comprehensive admin panel for this high-traffic platform.
- Integrated sophisticated UI components and connected complex backend REST APIs to handle real-time data and transactions efficiently.

Intelligent Hiring and Skills Gap Analysis

- Designed and engineered a complete MERN stack application from the ground up.
- Structured the database schema and backend architecture to support data-intensive hiring metrics while building an intuitive, responsive user interface.

Laka Platform

- **Admin Panel & Landing Page:** Engineered a scalable administrative dashboard and high-performance promotional site utilizing Next.js, TypeScript, and Node.js backend integrations.

ThinkLawn Ecosystem

- **Admin Panel & Landing Page:** Engineered a robust control panel and SEO-optimized platform, managing both client-side rendering and backend server operations.

Peela Suite

- **Admin Panel & Portal:** Designed and implemented comprehensive management portals tailored for optimal user acquisition, utilizing React.js, Tailwind CSS, and robust backend data synchronization.

Mirza Grease Service Website

- Developed a professional service platform to showcase business offerings, featuring responsive design and server-side optimizations.

EDUCATION

B.S. Computer Software Engineering

Sarhad University of Science and Information Technology | Peshawar, Pakistan
